$$\boxed{\text{यौन}} + \boxed{\text{पृष्ठ १}} = \boxed{\text{यौन पृष्ठ १}}$$

प्रश्न क्र.

Ans. of Que 5:-

Q. Suitable title :- Discipline.

Notes :- 1. Necessity of discipline :-

- 1.1. Achieve ~~can~~ nothing in life.
- 1.2. Condition ~~of~~ progress and strength.
- 1.3. All walks of human life.

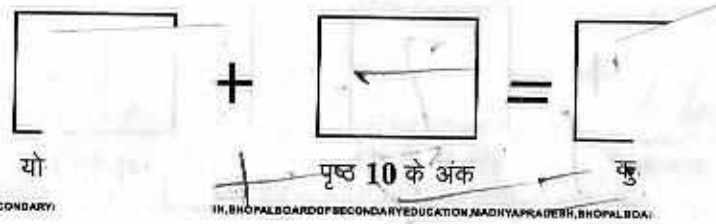

2. Without discipline :-

- 2.1. Society will lawless.
- 2.2. There will be disorderly.
- 2.3. We can not live.

3. Help others :-

- 3.1 Respect for authority.
- 3.2 education will suffer.
- 3.3 loses nothing but ruins a lot.
- 3.4 Children respect their parents and teachers.

Summary :- Discipline is necessary in life. Without discipline there will be disorderly and lawlessness in a civilised society. We find discipline loses nothing but it ruins a lot. Children respect their parents, teachers and elders. Discipline restrains us from missing our liberty.

प्रश्न क्र.

i) Introduction

It is the age of science. There are many wonders of science. Science plays an important part in our daily life. It has made our life easier and more comfortable. Science has changed our life. Science is nothing but a systematic way of knowledge and living.

B ii) Scientific invention :-

Science is inventing new things daily. It has given us wonderful things like radios, cars, gramophones, buses, electricity, printing press, X-rays etc. All are the new inventions of science. It has given eyes to the blind, ears to the deaf, legs to the lame and food to the hungry.

Electricity is the greatest invention of science. It runs our trains, mills and factories, It keeps cool and warms our houses, It washes and irons our clothes. Now we can sail on the seas and fly in the sky. It makes food and gives clean water. Science has given us many things which makes our life happier.

प्रश्न क्र.

iii) Means of communications :-

Buses, cars, trains, ships, aeroplanes all are the greatest contributions of science. Man can reach any part of the world within hours. Man has even reached the other planets with the help of science. The day is not very far when man will be able to travel easily to other stars and planets.

B

S iv) Medicine and surgery :-

E

Science has not only cured us from terrible diseases but also it has given us long age and good health. Science has also done wonders in the field of surgery. Nowadays heart surgery and heart transplantation have become very ordinary things. Science has controlled T.B. leprosy and cancer.

v) Computer :-

Computer is also a great invention of science. It is helping us a lot in several fields. It makes calculation at great speed. It is also working in T.V. program, railway and other matters. It is the digital age because of computer.

प्रश्न क्र.

vi) Atomic energy:-

With the discovery of atomic energy. Man has good source of energy. Now we are more powerful than earlier. It can meet demands of energy of the world for long time.

vii) Disadvantages of science:-

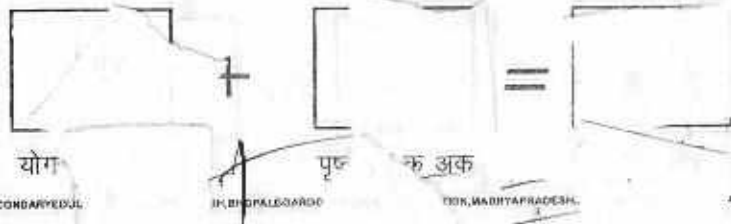

As we know that every thing has two side bright and dark. Science also has a dark side. It has invented atom bombs and other dangerous weapons. These are very dangerous for humanity. These can destroy the world within seconds.

viii) Conclusion:-

Science is great helpers to modern man. If science is used properly, It can make the life of man healthier and happier. It has given us weapons as gun, sword, bomb etc. These are very dangerous for humanity.

"Science is knowledge of Nature."
