Answer of the Q.No. (12)

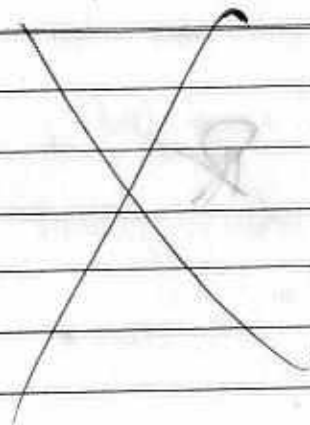

Answer of Q.No- 12 → (i)

It was the duty of the little boy to come to the school early ^{in the morning} each day, and -

to start the fire and warm the room before his teachers and classmates arrived.

Answer of Q.No- 12 → (ii) (04)

Babuli gave the paper slip to his elder sister-in-law. Because he had no courage to encounter his elder brother.

Answer of the Q.No-(13) (13) (13)

Maharana Pratap was attacked ^{by} Akbar

and forced to leave Mewar.

He was encamping at the foot of the Aravallis. He was very much depressed.

He left all the hope of regaining his kingdom.

At this time Bhama Shah came and laid all his money in the feet of Rana.

He asked him to raise the army and regain the mewar kingdom.

This was a great service by Bhama Shah to his motherland.

So Rana Pratap called him the 'Saviour of Mewar'.

9. Conclusion.

"Dawn to Dusk, Dusk to Dawn
Our daily life, Dependent on science"
(Nehru ji)

प्रश्न क्र.

B
S
E

1. Introduction → Now we are living in the age of science. There are many wonders of science. Science plays an important part in our daily life. It has made our life easier and more comfortable. Science is nothing but a systematic way of knowledge and living. Man's qualities of curiosity, alertness and keen observation of changes in natural happenings has given birth to science and scientific study.

2. Scientific Inventions → Scientists have invented several things and machines, big and small through observation of very simple events. Water boiling in a kettle has given us the Idea of Railway engine.

Falling of an apple from a tree has helped Newton to discover the 'Law of Gravity'.

Electricity is the greatest invention of man. It saves us in hundreds and thousands of ways.

It ~~sun~~ suns our towns, mills and factories. It cools and keeps warm our houses. It washes and ~~iron~~ irons our clothes. It gives us cool air and entertains us through cinema.

T.V. and Radio besides lighting our houses. Modern life is impossible without electricity.

Transportation

3. Means of Communications → Buses, Cars

Trains, ships and aeroplanes are the greatest invention of science. Man can reach any part of the world within hours. He has been even reached on the other planets with the help of science. The day is not very far when man will be able to travel easily to other stars and Planets.

4. Medicine and Surgery → Science has not

only cured man from terrible diseases. It has lengthened his age and made him healthiest healthiest as well.

In the field of surgery too science has done wonders.

Heart surgery and heart trans-
plantation have become ordinary
things now-a-days.
Science has controlled incurable diseases
like T.B., Leprosy and Cancer too.
"Our daily life today is governed,
conditioned and directed by offshoots
of the science." (Nehru ji)

5. Computers → Computers are also
great invention of science.
They are helping us a lot in several
fields. They make calculations at
great speed. They are also doing
a lot in TV programme, Railway
Reservation and other matter.

6. Atomic Energy → With the discovery
of atomic energy, man has harnessed
an inexhaustible source of energy.

It can meet the demands of energy
of the world for a long time.

7. Disadvantages of science

Everything has two sides, science too has a dark side. The invention and production of atom bombs and other dangerous weapons are a great threat to the existence of humanity in the world. These can destroy the world within seconds.

Secondly big factories, mills and other machines have polluted the atmosphere. It is becoming more and more difficult to get pure air and water.

"Science is a good servant but a bad master!"

पृष्ठ के अंकों का योग

8. How to minimise the Disadvantage →

By creating a healthy atmosphere we can keep the threat to humanity under control.

We must have Brotherly affection for all men and women.

All threats of war must be ended.

Secondly, by planting trees and other ways we can keep our atmosphere clean and healthy.

It is rightly said that-

"The Third world war will be fought with Bombs and missiles, But the Fourth world war will be fought with Stones and Arrows."

9. Conclusion → Science is a great helper to modern man.

If properly used, it can make the life of man healthier and happier. Truly it is because of science, that man is called the master of the world.

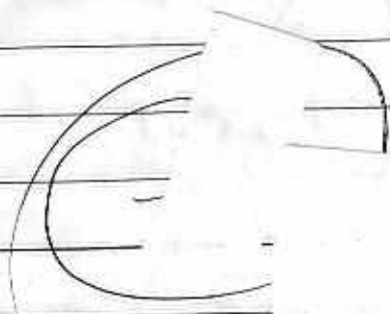

18

Mahatama Gandhi has rightly said that

("Science has taught us how to fly like birds, and how in the sky and how to swim like fish in the ocean, But it has not taught us how to walk on the earth.")

"Science is a good servant but a bad Master."

de/mol.
