2. Science as a blessing
 - (i) Science in our daily life
 - (ii) Electricity
 - (iii) Means of transportation and communication
 - (iv) Medicine and surgery
 - (v) Atomic energy, agriculture
 - (vi) Entertainment and education
3. As a curse
4. Conclusion

"In the sky above, in the ocean below and on the earth in between every where, has gone the triumphant chariot of science"

- Anon

"Our life, Today is governed or conditioned by the offshoots of science"

- Prof. Nehru

प्रश्न क्र.

1) Introduction - In the dim dawn of Creation when man opened his eyes he saw the blazing sun, the shimmering twinkling stars, the fast flowing rivers. He cried in the amazement "What are these?"

That question has been fully answered 'Today by science'.

The modern age is the age of science. The effect of science can be seen in all aspects of life. There are many wonderful things invented by science. In fact, science has brought a complete change in the whole world. We can say that science has changed this world into fairyland.

(2) Science as a blessing - we can discuss science as a blessing as below.

(i) Science in our daily life - science has increased comforts in the life of mankind. Science has made our daily life more comfortably now. Food can be cooked quickly in pressure cooker and can be kept fresh for a long time in refrigerator. Clothes can be washed in wash machine without any labour in very short time.

प्रश्न क्र.

(ii) Electricity - Electricity is a great wonder of science. Science has given us fans and air-conditioners which save us from cool and heat. Electric bulbs and tubelights give us light. Machinery works with the help of science.

(iii) Means of transportation and communication -

Science has made our travels more comfortably now. We have many various means of journey. They take us to our destination in a short time comfortably. We have won distance by the use of trains, buses, cars, steamers and planes. In fact, the far off countries have come closer due to quick services of aeroplane.

We can travel thousands of miles in a few hours.

Science has brought a revolution - any change in the field of communication. Science has given us cinema, telephone, telegraph and wireless. They have made the world quite small. Radio and television are a great gifts of science.

(iv) Medicine and surgery - Science has helped us to fight fatal diseases like cancer and T.B. It has lessened the sufferings and miseries the mankind. Surgery and x-rays are a great boons. Science has given eyes to blind, legs to lame and ears to deaf. Diseases

प्रश्न क्र.

like plague, cholera, small pox and malaria have been controlled by the help of science.

(v) Atomic energy, agriculture

With the discovery of atomic energy man has harnessed an inexhaustible source of energy. It can meet the demand of energy of the world for a long time.

Better with the help of fertilizers, medicine and better irrigation facilities we can take bumper crops. 'Green-Revolution' and 'White Revolution' (milk) have given us a lot.

(vi) Entertainment and Education - Science has given us radio, television, cinema and other thing. It has given us calculators, robots and computers. Computers are the greatest invention of science. They are helping us a lot in several fields. They make complicated calculations at great speed. They are also doing a lot in railway reservation and other matters. These inventions help in the field of education.

प्रश्न क्र.

3. As a Curse - But it is only one side of the coin. Science has produced deadlier weapons and made the war ^{more} destructive. The world is sitting on volcano. Any Laden or Hitler explode it. If third world war breaks, it can destroy the world by nuclear weapons. It has been rightly said "The third world war will be fought with bombs and missiles and the fourth will be fought with bombs and arrows." - C.E.M Joad

4. Conclusion - Gandhiji rightly said "science has taught us to fly like bird in the sky and swim like fish in the oceans but it has not taught us how to walk on the earth".

In fact; there is nothing wrong with science. It is up to man how he uses it. Hence, many should use science for peace and happiness of mankind. It should never be used for war or any destructive purpose. We can say that science is a good servant but a bad master.

Science is angel in peace or devil in war."

- Hardy.

Science is a beautiful gift to humanity we should not distort it.

- A.P.J. Abdul Kalam

Rana

Bhama Shah was a great patriot. He loved his motherland very much. Long ago his ancestors found favour with the lords of Mewar. He was thankful to the grand and generous rule of Mewar that the great prosperity attended all his family. When he knew the difficulties which

Rana pratap was suffering from he did not hesitate a minute to lay down all his property at the feet of Rana pratap. This shows in him the patriotism ^{and} spirit of sacrifice. He had a noble character. ~~Character.~~ life.
