National Institute of Food Technology Entrepreneurship and Management
(An Institute of National Importance under the Ministry of Food Processing Industries, GoI)

Date: 15.05.2025
D.O. No. N/K/DIR/92/2025

Dear A. Tripathi

Greetings from National Institute of Food Technology Entrepreneurship and Management, Kundli !

National Institute of Food Technology Entrepreneurship and Management, Kundli (NIFTEM-K), an Institute of National Importance (INI), was established under the aegis of the Ministry of Food Processing Industries (MoFPI), Government of India, in 2012. The Institute is located on a sprawling green campus in Kundli, Sonipat.

The Institute stands as a premier academic and research institution in India, addressing the diverse needs of stakeholders in the food sector, such as entrepreneurs, the food processing industry, exporters, policymakers, and government bodies, while consistently maintaining excellence in education and knowledge in alignment with global standards.

The Institute offers a diverse array of degree programs, which include B.Tech, M.Tech, MBA, Executive MBA, and Ph.D. programs in different facets of Food Technology and Management. During the 2024-25 academic year, NIFTEM-K admitted 316 students across its various programs from different geographic regions in India. The B.Tech program enrolled 184 students (66.3% Male, 33.7% Female), the M.Tech program enrolled 83 students (50.6% Male, 49.4% Female), the MBA program had 20 students (50% Male, 50% Female), and the Ph.D. program saw 29 students (34.5% Male, 65.5% Female). These students represented 23 states across India.

In addition to these academic offerings, the Institute provides specialized programs in Entrepreneurship Development, designed to foster young innovators and support the start-up ecosystem within various areas of Food Science. The Institute also houses various specialized divisions that support its mission and align with the goals of the Ministry of Food Processing Industries. These include the Centre of Excellence for Food Fortification (CEFF), Pilot Plants, Contract Research Unit (CRU), and the Centre for Food Research and Analysis (CFRA), Corporate Resource Cell (CRC) etc.

The village adoption program (VAP) of the Institute is a distinctive initiative aimed at raising awareness among students about the challenges faced by farmers while fostering food sector entrepreneurship among rural youth. Student groups visit various villages in different districts across various states to implement projects focused on food processing, value addition, preservation, and waste reduction. Additionally, they engage in social initiatives, such as the Swachh Bharat Abhiyan, promoting education for the girl child etc.

The Corporate Resource Cell (CRC) at NIFTEM strengthens academic-industry ties by facilitating internships, hosting expert lectures, and managing placements. It helps students connect for quality internships, provides application guidance, and supports resume and interview preparation. The cell also maintains employer relationships and leverages the alumni network for job placements, offering practical experience and career opportunities for students. The Institute has consistently achieved impressive results in internships and campus placements. In 2024, the average package for B.Tech graduates was ₹6.23 lakhs, with a placement rate of 78%, while the MBA program saw an average package of ₹7.08 lakhs, with a placement rate of 92%. Major recruiters included Adani Wilmar, ITC Foods Ltd., Amul India, Tetrapak, Mondelez International, Hatsun Agro Foods Ltd., Haldiram etc

Please find attached the Admission Brochure detailing the various programs being offered by the Institute. We request you to circulate this among academic authorities concerned to facilitate prospective students in applying for programs of their choice.

With warm regards

Yours sincerely

Harinder Singh Oberoi
