Question no. 5

This picture shows, a father who ^{is} carrying her daughter to school. This is taken from the chapter 'Bholi' of our book. The girl, (Bholi) had never gone to school, so she didn't know how does school look like, she was afraid. But when she got neat & clean dress she believed that the

प्रश्न क्र.

place where she is going is surely better than her home. Her father takes her to school, which was newly opened recently. She sees many girls of her age in the school and also meets a teacher, whose voice is soothing & calm. She enjoyed the drawings that were made on the walls. Apart from the story, this depicts a scene of village where many girls are going to school. It is green - all around the school means there are too many trees and plants. A man is carrying a girl to school. School, is a place where everyone get knowledge, & find many friends. The main motive of a school is to educate, punctuate people. An educated man gets respect all everywhere. So, everyone should be given education, either they belong to rural area or urban area. Education is a must for life & the same is school.

Question no. 6

(iv) Science in Daily Life

Outline :-

- 1 - Introduction
- 2 - Scientific Inventions & Daily Life
- 3 - Disadvantages of science
- 4 - Minimising Disadvantages
- 5 - Conclusion

"Science of Today is Technology of Tommorrow"
- Edward Tellen

1] Introduction :- It is the age of science. There are many wonders of science. Science has played important role in our daily life, it has made our life easier and more comfortable. We are progressing in the world because of science. The man's quality of curiosity and alertness has given birth to science and scientific study.

प्रश्न क्र.

2. Scientific Inventions & Daily Life :- Scientist have invented things and machines very big and small through observation of very simple event. Boiling of water in a kettle gave us idea of railway engine. Falling of an apple from a tree helped Newton to discover law of gravity. Science has made ~~our~~ life easier. Electricity is the greatest invention of man, & Science. It serves in many ways. It washes and irons ~~with~~ our clothes. It warms & make our houses cool. It run our mills, industries etc. It ~~is~~ is very important for daily life uses.

B
S
E

“ Science is the ultimate gift of nature
And the Greatest One.”

3. Disadvantages of science : Everything has two sides. Science too has a dark side. The weapons and bombs that are made with science are great threat to world. These can destroy the world within seconds. Also various

प्रश्न क्र.

machines have polluted the environment, that are produced by science. It is getting harder to find pure air & water.

4. Minimising the Disadvantages :- If the disadvantages of Science will not be minimised then the day is not so far when the Earth will have destroyed. We should have brotherly affection for everyone. Governments should also put ban on manufacture of atom bombs & weapon. Also we all have to do afforestation in order to reduce the pollution.

"Science is the key which opens for mankind, the Doorway of Nature"

Conclusion :- It is because of science man is called master of the world, but if it will be used for wrong purposes then the whole planet will get destroyed. So, we should use the science & scientific knowledge for the development of humanity not for destruction.
