E

Earth is the most priceless gift from God. Producing everything from its base, it is like a treasure. It provides us with every life giving things.

Earth is known as Mother Earth, the term mother symbolises that like a mother it gives nutritional values that we needed in life. The most vital thing is that it gives us pure oxygen due to which we are surviving and absorbed the exhaled CO₂ by human beings. Everything from the humans, animals, birds to mountains, natural scenic beauties are in the grasp of earth. While watching the rally of 'Green Peace Activists', it feels like we should also give equal support to them.

Earth is the habitat of rare species. We must protect it by pointing out the things that are threatening the core existence of our earth.

No one will take birth"
