It was one of the best trips of my life. Our family enjoyed a lot. But we all missed you. Will meet you as soon as possible. Give my regards to your parents and love to ^{younger} brothers and sisters.

With love:

"The Importance of Trees"

B
S

Trees are very essential for our life. They are our true friends. They give us fruits to eat and firewoods to burn. They give us woods to make our houses and furnitures. They also support life. They give us oxygen. They play a very important role in our life. But now-a-days, because of many reasons like overpopulation and human greeds, trees are continuously being cut. This leads to the imbalancing of our ecosystem. Continuous cutting of trees leads to disturbance in the climatic conditions and weather. Trees cause rainfall. If trees will disappear, then rain will not occur. Moreover, the pollution will also increase to a great extent in the absence of trees. We should stop cutting trees for our greed and each person should plant at least one plant. Government should also take steps to stop cutting of trees. Tree plantation should be made a compulsory drive through out the world otherwise human kind will be in a great danger.
