or

Risks.

No risk no gain goes the saying no one achieve success without taking risk, Although risk lies everywhere to laugh is to risk appearing fool, to weep is to risk appearing sentimental, to love is to risk not being loved and to live is to risk dying. We must take risk because nothing remarkable can be achieved without taking risk the greatest hazard in life is to risk nothing. A person who risks nothing, does nothing, is nothing, has nothing and becomes nothing. Such a person will miss learning, growing, loving changes, living and feeling. Only a person who risks is truly free because he has a chance to achieve anything remarkable in the life. The person who does not take risk are slaves because they are chained by their certitude and forfeited their freedom.

Ans. of Q.7)

Our daily life and science

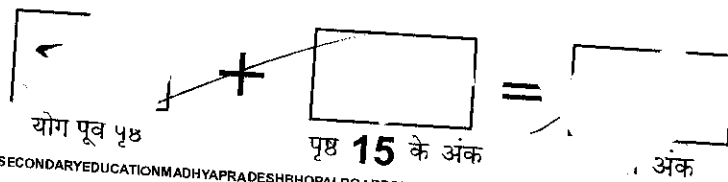

"Science is the key which unlocks the store house of nature for mankind."

Introduction - Modern age is the age of science, it has increased human comforts. It has given us many wonderful things. We are totally depend on science and its influence. From morning till the end we are depend on science. It has changed our lives into a bed of rose. Down to dusk and dusk to dawn we are depend on science.

Electricity Electricity is the greatest invention of science it has changed dark night into the bright days. it serves us in hundreds and thousands of ways. it runs our trains, mills, factories. Modern life is impossible without the electricity.

Atomic energy :- Atomic energy is the latest discovery of science with this people have reached the moon it can meet the demands of energy.

15

Medicines - Science has given us many effective medicines to cure the terrible diseases. Heart surgery and heart transplantation have become ordinary now a days. In fact science has given legs to lame, eyes to blind and it has made the life long.

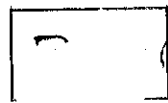

Means of recreations: Science has given us various means of recreations, Radio, Cinema and televisions are good means of recreation. The educational training has become possible with the help of Science.

Disadvantage Science has invented Atom bombs and Hydrogen bombs. These bombs can destroy big cities and kill a millions of people in a few second. big machines and factories create air, water and noise pollution. Man has become a slave to machine.

"The third world war will be fought with bombs and missiles ^{but} and first world war will be fought with stones and arrows."

C.E.M. Joad

प्रश्न क्र.

Agriculture: - Science has done wonders in the field of agriculture. With the invention of insecticides, pesticides, tractor, harvester agricultural production has increased. India is on the step of second green revolution.

Computers: - Computers are the greatest invention of science. These computers can do complex calculation. Computers have solved a lot of problems of the man. Computers can be used in every field. Thus computers are the greatest miracles of science.

Means of transport: - Science has

given us various means of transport. Trains, buses, aeroplanes are the means of ~~recreation~~ transport, travelling has become fast with the help of railways and aeroplanes.

Means of communication: - Mobiles, Televisions, Telegrams are the means of communication. Communication has become simple with the help of mobile phones.

17

$$\boxed{\text{योग पूर्व पृष्ठ}} + \boxed{\text{पृष्ठ 11 अंक}} = \boxed{\text{कुल अंक}}$$

Conclusion - The invention of atom bombs is a threat to peace, all the ~~the~~ threat of war must be ended. Science has given us many wonderful things as medicines, electricity, means of communication and recreation but the invention of hydrogen bombs ~~can~~ is a threat to peace. Man is called the master of science because of science. Science is a ^{world} good servant but a bad master.

"Science is an angel in peace but a devil in war"
 prof. Hardy

"Science has taught us to fly like the birds in the sky, to swim in the water like fish but Science has not taught us to walk on the earth"

C.E.M. Joad
