Report

On the dated 03-07-2017, two buses collided which were coming through the opposite side of each other. Both of buses collided at the place of 'Sidhi Charaha' at noon. They were full of passengers. Above 300 people were in the buses. The drivers of the buses died on the spot and some passengers were wounded and some injured. Those people who were injured, they were gone to hospital for treatment and were informed to their family members. The people's life and property had completely destroyed in this accident.

When this accident happened then no police members ^{were} present there and no facilities were available. Absence of computers were unable to regulate the transport rules.

So, if we want to prevent such an accident, government will have to take a strong step towards that and people will have to be alert.

Answer no. - 15 (OR)

The central idea of the poem 'Risks' :-

A life of a man is the game of snake and ladder. It is full of ups and downs. So we should not be afraid to take risk in our life. Those people who take risk, is free through slavity. They learn, grow, love, live because of taking risks and those persons who don't take risk, they are slave and are chained there cestitude.

• Our daily life and science •

"In the sky above, in the sea Oceans below and on the earth - everywhere has done triumphant chariot of science."

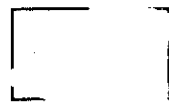

(i) Introduction : —

In the dim-dawn of creation, when man opened his eyes, he saw the blazing sun, the shining moon, the twinkling stars and gurgling cataracts. He cried in amazement - "What are these"? That question has been fully answered by science.

(ii) Scientific Inventions : —

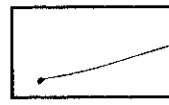

Scientists have ^{done} great wonders in the field of innovation. They have invented several things - small and big through the observation of little things. For example - Falling an apple from a tree, have helped the Newton to discover the gravity of earth. Besides it,
